

Community Question and Answer sessions will be offered in April 2019. These sessions will be an opportunity to review frequently asked questions pertaining to Environment Rating Scale requirements. There will also be an opportunity to address audience questions. We look forward to this opportunity for engaging with partners during these informative sessions. There will be ten sessions presented in five locations. In order to include staff from multiple agencies or community organizations, attendance will be limited to two staff members per agency and/or organization. If you have questions that you would like to submit before the session, please send questions to ChildCare.Assessment.DHS@tn.gov. We look forward to this opportunity for engaging with partners during these informative sessions.
